*The word **ORIGEN** derives from the Latin word "orígo", which refers to the beginning, start or emergence of something. This innovative wine was aged in ovoid-shaped tanks, which were made from ancient stones extracted from our own terroir located in the Cachapoal Andes. These alluvial stones give us a unique mineral typicity and spirit that can only come from the balance between soil, climate and the work of man in our vineyards.*

## Climate and Soil

*Its terroir corresponds to a foothill piedmont, characterized by alluvial and colluvial, dry land, with a climate of high temperature fluctuations between day and night, a characteristic condition of a continental climate.*

## Vinification

*From the time the grapes enter the tank until the end of alcoholic fermentation, a period of 20 to 35 days passes.*
***Prefermentative maceration:** between 2 and 6 days*
***Alcoholic fermentation:** between 7 and 14 days*
***Post-fermentative maceration:** between 2 and 10 days*
